

FSC certified papers

August 31, 2007

In order to use the FSC logo and an environmental claim on paper, the product must be tracked through the FSC chain of custody. This means, the forest, paper producer, paper merchant and printer must all be FSC-certified. For some papers, you must request the 'FSC certified grade'. Label graphics are provided to all certificate holders by their certifier. Also, please note that basis weights vary by merchant, be sure to inquire what basis weights a particular merchant carries.

PLEASE NOTE: This list is compiled by FSC Canada and contains information based on papers available in the Canadian market, which may differ slightly from what is available in the U.S. market. If you are in the U.S., please check with a U.S.-based merchant for information regarding the availability of FSC-certified papers. A list of U.S. merchants is available at: www.fscus.org/paper

Uncoated Offsets

Uncoated offset papers have a slightly fibrous surface with the quality characteristics needed in order to withstand the rigors of offset presses.

Used for: communications and advertising such as direct mail, bills, reports, or magazines

Coated Offsets

Coated offset papers have a smooth clay or latex coating applied over a freesheet or groundwood base paper with the quality characteristics needed in order to withstand the rigors of offset presses. They are available in a variety of finishes, such as gloss, dull and matte and a variety of grades (levels of quality).

Used for: books, art-quality posters, high-end advertising, frequently for high quality magazines, advertising, brochures, catalogs.

Newsprint

An inexpensive paper made from groundwood or mechanical pulp used chiefly in printing newspapers.

Brand Name	Basis Weight	Stock Grade	PCW	FSC label	Availability
TEMBEC Newsprint	45, 48.8, 52.1 GSM	1	20%	Mixed Sources FSC_MS_1 or 2	Mill order Check with merchant

Paperboard

A material similar in shape and composition to paper, but generally thicker, stronger, and more rigid. The function of a particular type of paperboard is often indicated by its name, e.g., *boxboard*. Paperboard can be made into a wide variety of items, including folding cartons, advertising displays, electrical insulators, and coasters.
